

YOUTH-LED NONPROFIT · KOLKATA

ELEVATEX

Empower teens to empower the world.

ABOUT US

STARTED DURING BOARD EXAMS. STILL GOING.

ElevateX is a nonprofit run entirely by school students in Kolkata. Three friends had the idea in December 2024. By March 2025 it was real, and today more than 300 teenagers are part of it.

We teach, we feed, we clean up and we raise money. And we hold ourselves to a number: every drive is **scored against the plan it started with**.

THE WORK SO FAR, IN NUMBERS

50+
drives and workshops

300+
teenage volunteers

₹10L+
raised at our events

2,000+
lives touched

1,200
kg of food given out

250+
saplings in the ground

200+
kg of rubbish cleared

200+
umbrellas for the monsoon

Alongside **5 fundraisers**, **6 partnerships** with other NGOs and nonprofits, and **2 drives** backed by local schools.

OUR FLAGSHIP PROGRAMME

PROJECT UNNATI

Most teenagers learn how money works only after they've made the mistakes. Unnati gets there first, with hands-on workshops on saving, budgeting and first steps in investing, built on everyday examples rather than textbook definitions.

- **10+** workshops run
- **100+** students taught
- Run with local NGOs and a partner school
- Teaching since June 2025

OUT ON THE STREETS

GREENER CITY

It began with a clean-up at Victoria Memorial. Now: 250+ saplings and 200 kg+ of rubbish cleared.

STRAY CARE

Regular feeding rounds for the animals in our neighbourhoods: 150+ fed so far.

FOOD AND RELIEF

Meals, essentials, and over 2,000 cold drinks on the hottest days of summer.

EVERY SEASON

Blankets before winter, Raksha Bandhan with police personnel, and an eco-friendly Holi.

WHERE IT STARTED · OUR FIRST FLAGSHIP

GREEN INDIA INITIATIVE

Before Unnati, our main mission was a cleaner, greener Kolkata, one neighbourhood at a time. It gave us our very first drive, a clean-up at Victoria Memorial, and the habit of turning up and doing the work.

- Street and park clean-ups: **200 kg+** cleared
- Plantation drives: **250+** saplings
- E-waste and household waste collection
- Awareness sessions for children

BEHIND THE NIGHT

- A separate admin and execution team, set up just to run it.
- Our first real ticketing system, with early-access passes and controlled entry.
- DJ Omar on stage. Food from Belgian Waffles, Wow Momo and Nandus.
- Backed by sponsors including Trendoraz and Grid Iron.

HOW WE HOLD OURSELVES ACCOUNTABLE

EVERY DRIVE GETS A SCORE

We built our own measure: the **ElevateX Drive Performance Index (EDPI)**. The plan is locked before a drive starts. Afterwards, we compare what happened with what we promised.

100
plan delivered

115
the ceiling

Impact: did we hit the target we set, in meals, kilos or saplings?

Money: what did each person helped cost, and did we stay in budget?

People: did enough volunteers turn up, and was the work shared fairly?

+10 bonus for working with an outside partner.

A score under 100 isn't a failure. It tells the team what to talk about in the debrief.

WHERE WE'RE HEADED

"When we came up with ElevateX, our board exams were going on. 'Elevate' was for the mission. The 'X' was a last-minute touch, inspired by the maths exam we had the next day.

It was just the three of us then: me, Samridh and Devyansh. Today we're a team of over 300.

We only work in Kolkata for now. One day we want ElevateX across India and beyond, as one of the largest youth-led nonprofits anywhere. Not just an organisation, but a movement."
